

# DGT BT e-Board

WIRELESS BLUETOOTH TECHNOLOGY

Bluetooth

Updates

2

Use for live internet broadcasting,  
play via internet or classroom teaching!

## Product highlights

The wireless e-Board is available in Rosewood with indices and is compatible with all DGT chess pieces sets. It connects to the computer via Bluetooth.

Individual piece recognition means that the board's sensor technology fast and accurately recognizes all individual pieces by colour and type. Use the innovative e-Board to record your games, play online, play against chess engines or broadcast your games live via the internet.

The DGT 3000 chess clock connects to the board and the opponent's moves are shown on the clock's display. The e-Board and accessories are supplied in a beautiful gift box.
